

Is your spreader wasting fertiliser?

Join us at an Accu-Spread demonstration day to find out

Did you know that the majority of fertiliser spreaders deliver highly variable spread patterns? This means some areas in the paddock receive too much fertiliser and others too little.

Join Australia's leading Accu-Spread specialist Russell Nichol, who will demonstrate how to test and calibrate fertiliser spreading equipment to increase productivity and reduce nutrient loss to waterways.

Kalgan - Wednesday 15 June - 8am

Carroll property 313 Douglas Rd

Woogenellup - Thursday 16 June - 8am

Hunt property 2873 Woogenellup Rd
